

Occupational health and safety induction

Undergraduate, Graduate-Entry Masters students

Emergency evacuation

The evacuation alert system consists of two tones:

- The first is a single tone repeated at regular intervals, a low “beep-beepbeep” tone. This tone means that you need to be aware that an evacuation may be required. This is the “prepare to evacuate” tone. When this tone sounds it is essential that you cease the activities in which you are engaged and prepare yourself and your clients/visitors to leave the building.
- The second tone is one which rises in pitch moving from a low to a higher sound. This tone is the “whoop whoop” tone, which indicates that it is time to evacuate the building.

Emergency Wardens (wearing red helmets) on each floor will provide direction to the nearest appropriate exit and will be communicating with the Chief Warden. – Be sure to follow all instructions given by the Chief Warden (through the intercom system) and your floor Wardens.

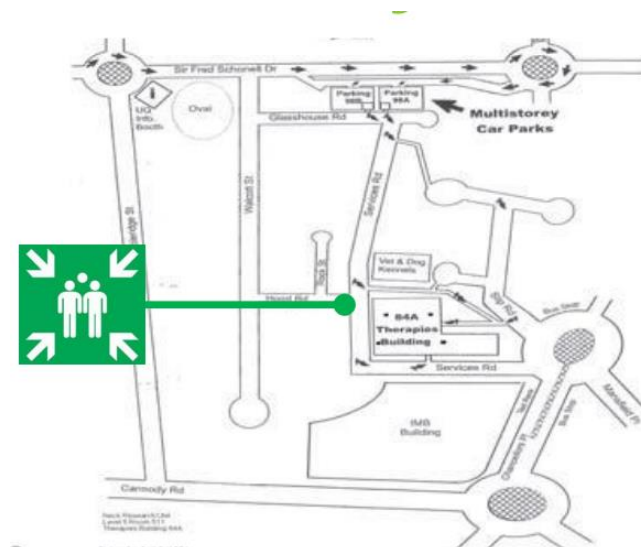

Assist clients with mobility limitations to move as close as possible to the nearest exit without blocking the exit. The Emergency Warden will provide further instructions.

In an emergency the lifts cannot be used.

Assembly points

Therapies Annexe (main building) - assembly point is Services Road turn right, and walk ~ 50 m, to arrive at the bend in Services Road.

Therapies Building (level 1 & 2 wing) - evacuate through the northern exits of 84 (ramp) onto to Services Road, turn left (to the south) and move along Services Road to the same assembly area.

First aid

Names and contact details of University appointed First Aid Officers are listed at the elevators on each floor.

UQ Security staff are also qualified First Aid Officers (for assistance call 3365 3333 **NOT** 000).

First Aid Kits located on each floor of SHRS.

EpiPens are **NOT** stored in first aid kits.

Inform the First Aid Officer if items from the first aid kit are used.

If you are not sure...

Emergency procedures, and the names of Emergency Wardens, First Aid Officers and OHS staff are listed near the elevators on each floor.

Ask the educator, supervisor or OHS staff.

Risk assessments

Students need to access the UQ Risk Management Database and review any relevant risk assessments available. These include (but are not limited to) the following Risk Assessment.

Task IDs:

ALL SHRS Students: 48859, 26414, 25454, 25171, 46730, 35734, 16100, 37058, 37056, 55283, 38358, 38359, 52771, 48646, 37056

Speech Pathology Students: 34411, 53192

Physiotherapy Students: 35957, 55517, 55518, 55519, 55520, 55522, 55523, 49438, 57417, 57418

Audiology Students: 36879, 37145

Occupational Therapy Students: 36966, 37009, 36964, 47255, 59697

Instructions on using the database can be found here: <http://www.uq.edu.au/ohs/risk-management>
