## About this guide

This guide is about texting on an Android phone.

Android is an operating system.

Texting lets you send written messages to other phones.

To use this guide you must have a smart phone.

Your smart phone must use the Android operating system.

This **guide** has a **glossary**.

The **meaning** of **some words** is in the **glossary**.

The **glossary** is at the **end** of this **guide**.

## Glossary

- Android: An operating system created by Google.
- **App**: A program that does a specific task.
- **Contact**: A phone number you have stored in your phone.
- **Emoji**: An image used to express an emotion.
- **Message field**: A box where you can enter text.
- **Operating system**: A way of managing digital information.
- **Pin:** A favourite conversation thread. Pinning a thread makes it appear at the top of the list.
- **Predictive text:** A feature that lets your phone guess words for you. This can make writing easier.
- **Text**: A written digital message sent from a phone.
- **Thread**: A list of messages sent between people.

Techhub@uq.edu.au

0473 643 237

• Voice to text: A feature that changes your speech into writing. This can make writing easier.
